

Flat-Roof Shade Net House

Discover Agriplast's Flat-Roof Shade Net House—designed for heat and light control. Ideal for nurseries and vegetables with 4.5m center height, 3.5m vents, and customizable grid sizes.

Flat-Roof Shade Net House by Agriplast

Agriplast's Flat-Roof Shade Net House helps regulate heat and light intensity with smart design. Perfect for nurseries, vegetables, and floriculture in all seasons with 4.5m height and 5–8m grid.

The **Dome Shape Net House** by Agriplast is a thoughtfully engineered structure designed to support eco-conscious and sustainable farming practices. With its **ergonomic dome-shaped design**, it stands out from traditional flat-top or peaked net houses, offering both aesthetic appeal and functional advantages like improved wind resistance and even shade distribution.

Agriplast designs its net houses using **Israeli engineering standards** and supplies only the highest-quality protected cultivation structures in the Indian market. We are a trusted name in agricultural infrastructure, offering top-grade Polyhouses, Greenhouses, Net Houses, and custom-built subsidy-free models.

The **Dome Shape Net House** is built using **hot-dip galvanized steel** with the following specifications:

- **Column Size:** 60mm OD × 2mm thick
- **Arch Pipe:** 48mm OD × 2mm thick
- **Intermediate Column:** 60mm OD × 2mm thick
- **Hockey Pipe:** 60mm OD × 2mm thick

These components ensure structural stability, corrosion resistance, and durability for long-term farming. It's a **low-maintenance structure** that provides adequate shade, pest protection, and controlled environmental conditions for crops like nursery plants, vegetables, flowers, and medicinal herbs. Whether you're a small grower or managing large-scale operations, Agriplast's Dome Net House offers a reliable solution for protected cultivation.

We also provide **Greenhouse Turnkey Project Services** and **Agricultural Advisory Services**, making us a one-stop solution provider for hi-tech farming infrastructure.
