

Ginegar Embossed Mulch

Ginegar Embossed Mulch: 3-layer LDPE, 24-month UV life, weed-proof. Boosts photosynthesis for vegetables and orchards. Visit www.agriplastup.com for White-Black or Silver-Black options!

Elevate Growth with Ginegar Embossed Mulch

Ginegar Embossed Mulch, a three-layer LDPE film, offers zero light transmission and a 24-month UV life, ideal for vegetables, flowers, and orchards in single rows or greenhouse gables.

Ginegar Embossed Mulch from Agriplast North is a specialized three-layer LDPE film designed for vegetables, flowers, and orchards. With 100% virgin material and zero light transmission, it reduces weed germination while enhancing photosynthesis for healthier plants. Available in White-Black for hot climates above 30-35°C and Silver-Black for cooler areas below 30°C, this 25-micron mulch offers a robust 24-month UV life. Provided in 1m and 1.2m widths and 1000m lengths, it's perfect for single-row layouts or greenhouse gables. Visit www.agriplastup.com for immediate delivery and superior crop protection across India!
