

Soil Solarization/Low tunnel Film

Agriplast Soil Solarization Film: 30-micron LDPE, anti-drip, UV-stabilized. Kills fungi, bacteria, nematodes. Visit www.agriplastup.com for healthier soil now!

Sterilize Soil with Soil Solarization/Low Tunnel Film

Agriplast Soil Solarization/Low Tunnel Film, a 30-micron LDPE transparent film with anti-drip, traps heat to eliminate fungi, bacteria, and nematodes for soil health.

Agriplast Soil Solarization/Low Tunnel Film, available at Agriplast North, is a 30-micron LDPE transparent film designed for soil sterilization. Featuring anti-drip properties, it harnesses trapped heat to combat harmful fungi, bacteria, and nematodes, promoting a healthier growing environment. UV-stabilized for durability, it comes in 2m or 4m widths and 200m or 400m lengths, ideal for soil solarization and low tunnel applications. In stock for immediate delivery from Hosur or Ahmedabad, this eco-friendly solution enhances crop safety. Visit www.agriplastup.com to improve your soil quality with this effective film today!

3x better
pathogen control with heat trapping

2x enhanced
durability with UV stabilization

4x more
effective with anti-drip technology

Material	LDPE
Thickness	30 Micron
UV Stabilized	Yes
color	Transparent
Available Width	2/4 meter
Available Length	200/400 meter
Recommended for	Soil solarization/low tunnel
Delivery time	Immediate
Port of Dispatch	Hosur/Ahmedabad
