Agriplast Zig-Zag Wire: PVC-coated, rust-free, 2.2-2.5mm. Secures greenhouse films, nets against wind. Visit www.agriplastup.com for durable fixing!

Secure Greenhouses with Zig-Zag Wire PVC Coated

Agriplast Zig-Zag Wire, PVC-coated and rust-free, offers strong 2.2-2.5mm holding power to fix greenhouse films, insect nets, and shade nets against wind.

Agriplast Zig-Zag Wire with PVC coating, available at Agriplast North, is a rust-free, 2.2-2.5mm thick solution for securing greenhouse films, insect nets, and shade nets. This 2-meter-long wire provides strong holding power against wind, reducing heat transfer to profiles and preventing plastic damage. Its durable, PVC-coated design ensures long-lasting performance in greenhouses and net houses. In stock for immediate delivery from Hosur or Ahmedabad, it's an essential accessory for stable, heat-efficient setups. Visit www.agriplastup.com to enhance your greenhouse resilience and protect your crops with this reliable zig-zag wire today!
